The hygge is a Danish concept that is close to an art of living that everyone can put into practice with simple tips and activities. The purpose is to design the environment and give you the time to have the philosophy of Scandinavian happiness in which creativity will be able to give their heart by creating decorative objects 100% DIY.
WHAT IS HYGGE?
First of all, you must really ask yourself the question: how do you pronounce this word? Well, it's pretty simple, it's pronounced "hyggé".
There are multiple definitions of this concept: some speak of the art of creating intimacy, others of comforting the soul. The hygge is to share convivial moments with his family, a meal with friends, going during the summer, share his creative passion, introduce his children to his hobby and so on. The goal is to share moments with people we appreciate and transform the ordinary into small moments of happiness.
Finally, in Scandinavian culture the home is a very important place. Your interior must create an atmosphere of warmth and security. So, decorating and decorating your interior is just great in essence.
Light is essential.
Light is essential to the concept of hygge to create a comforting atmosphere. Lighting candles is unavoidable, so why not create some?
