How to make a Fast Peyote weave ?

Here's a tip that will allow you to weave your Peyote weave much faster. This technique works equally well for the odd Peyote as featured in this video as well as for even Peyote weaving. This trick is intended for beaders who have already made weavings Peyote point Pair and Odd classic .

The principle of this technique is to thread two rows of Miyuki pearls at once as for the beginning of a peyote weave, then to embed the pearls of a single row in the previous row.

However, be careful to read the diagrams because if you are wrong pearl color, the back is much more complicated, or impossible.

Another difference with the classic Peyote weave is that the Fast Peyote weavings are much less flexible and fluid.

Here are 3 reasons to practice using this technique:
