

DIY KNITTING : HOW TO STOP THE STITCHES OF A KNITTING ?

By : Perles & Co

Are you new to knitting? Don't panic, you're in the right place! We have prepared a series of videos with the basics of knitting. Follow our tips and the basics of knitting will no longer be a secret for you!

How do you stop knitting?

In the language of knitters, the "folding of stitches" means that we want to finish his work, stop the stitches by making a border to prevent them from unknitting.

Discover in this video how to finish a knitted piece or how to turn down the stitches at the end of the row.

You've decided to knit? You want to start knitting? Take a look at our [knitting tutorials](#) and practice by knitting [ahat](#) or a scarf. If you want to start a more complex project, try knitting your [first sweater in moss stitch](#) with our tutorial. Follow our tips and the basics of knitting will no longer hold any secrets for you!

Tutorial's steps

★ Step 1/7

To fold over the stitches, start by knitting the first and second stitches normally.

★ Step 2/7

The first stitch is picked up with the left needle from the front, then passed over the second stitch.

★ Step 3/7

Knit the next stitch as usual.

★ Step 4/7

With the left needle, stitch the first stitch on the right needle and pass it over the second stitch.

★ Step 5/7

Repeat the operation.

★ Step 6/7

When you reach the last stitch of the row, proceed in the same way: knit the stitch normally. With the left needle, stitch the first stitch on the right needle and pass it over the second stitch.

★ Step 7/7

Then, pull the yarn, cut it and pull it through the last stitch. And voila, you have a nice border!
