How to follow and use a sewing pattern?
Begin easy sewing for beginners

Want to get started in sewing and create your own clothes ? It's not always easy to grant you, especially to start when you do not know where to start.
And the boss is not the best friend of all seamstresses, on the contrary it discourages more than one, we are not all born (for our greatest regret) with embarrassment Coco Chanel. But no worries we are here to help you! In this technical sheet to follow a sewing pattern for beginners , we will teach you to follow a pattern of sewing and to use it , then it will become a breeze! You can also find our technical sheet to know what material to use if you start in sewing . In this video Chahrazad, thank you very much, answers all the questions you can ask yourself if you are new to the world of sewing , you will find for example:

- How to choose your fabric?
- Where to start ?
- How to put myself in the right conditions to discover my boss?
- How to find the size that suits me?
- How to identify the pieces of the boss?
- What information can I find on the boss?
- How to know how to cut the pieces in the right fabric and the right number of times?
- How to know how to assemble the different parts?

We hope you enjoyed the video and that it will help you achieve what you want to create. Do you feel your creative soul revealing itself? We have selected a lot of tutorials to make DIY sewing easy for beginners :
DIY easy sewing in decoration :

- Sew his empty pocket
- DIY mustard cushion and pompons
