

THE 5 ESSENTIALS FOR BACK TO SCHOOL

By : Perles & Co

The 5 essentials for back to school And yes, you know it, in any case you felt it passed, it's back ! The period both long awaited for some and so dreaded for others! The one where we pick up the good habits and the rhythm, often at a thousand miles an hour. But now that the hard part is over, there is no way to forget yourself, so we take time to have fun ! And having fun is also discovering new things. To do this, we have concocted a small list of the 5 must-haves of the fall. Aspiring or experienced creators, it's never too late to try out new creative hobbies , so let's get started! 1) Getting back to embroidery We grant you ... for a long time, embroidery was not the most popular activity, but we assure you that everything has changed! We are sure that after trying it, the embroidery needle will quickly become your ally. And yes, whether it is to customize an item of clothing , make a birth gift , or even decorate your interior, you will adopt embroidery in all its forms. Don't worry, our technical sheet " The different basic stitches in embroidery " is here to help you get started;) 2) And we haven't told you everything about embroidery yet! Do you know the magic needle ? Real name " Punch Needle ", this needle with the very wide eye allows to revolutionize the embroidery. To learn more, watch the video on how to use this wonder: 3) "How to use the punch needle or the magic needle?" To go even further, find all our embroidery tutorials on our site. 4) try your hand at macrame You've heard of it before, that's for sure! Whether it is micro-macrame to make pretty very fine jewelry, or larger to make beautiful macrame wall decorations , you necessarily know this technique. Yes, the one which consists of tying threads between them (a bit like going back to childhood with Brazilian bracelets for that matter). While you prefer the meticulous side of micro-macrame or the thicker macrame threads, you are bound to find something to inspire you by finding all of our macrame tutorials. Beginner? Don't panic, we have what you need: datasheets specially designed for you! 5) What is macrame? Learn different basic knots macramé 6) Touching the resin THE resin ! Impossible to miss this technique! Pour, mix, encrust, mold, unmold ... so many steps which have their side to be satisfying! The possibilities are many © s and Result © results still as surprising as you leave entire freedom to your credit © © © activité. Whether it is to create everyday accessories or elements to mount in the making of jewelry: pearls, cabochons, pendants and many others, you are bound to find what you are looking for. There is something for all tastes ... the hardest part is often to choose: poxy resin, transparent or colored resin, UV resin or inclusion resin. . and again we do not tell you about the choice among the molds . Find without further delay all our resin tutorials on our site. 7) Thread beads For those who are already keys to everything, but have not yet dared to tackle the small pearls, fear not! Once your cat is well trained, no worries it will be fine. Each reference in a small box, everyone in their place. The combinations of colors and techniques are so numerous, that we quickly want to try everything! Ask Tiffanie, our expert designer in pearl weaving , it seems that it quickly becomes addictive, and we can not do without! Before you start, take a look at our technical sheets: Learn pearl weaving, you will find all the information you need to start a weaving, enlarge it, reduce it, etc. And if you need a little more info, don't hesitate to join our Perles & Co Customer Super Club on Facebook, you will find a community of beaders always ready to share on the subject! No more excuses not to get started. 8) get your hands on the dough A nice way to say that it is an activity to do as well alone as with your children (always under supervision of course!). Polymer clay, a kind of baking clay. You certainly cannot imagine all the possibilities offered by this material: jewelry, decoration, accessories in polymer clay , everything is possible. Don't worry, we won't let go of you like that in nature! Karine, our expert designer is there to guide you and offer you the latest news on a daily basis to test. So find all our technical sheets to start in polymer: Tips and tricks to start in the creation in polymer clay So ? What are you going to get into first? We can't wait to know!
