

9 DIY JEWELRY IDEAS WITH WOODEN BEADS

By : Perles & Co

Jewelry made with natural materials (vegetable ivory, natural seeds, mother-of-pearl, shell, horn, wood, etc.) have been back in the spotlight for several years. If you have not yet succumbed to this trend, know that there is still time to take your wooden beads out of the closet. Much like resin or acrylic beads, wooden string beads are not just for children's craft. Adults will also enjoy using them. Of all shapes and sizes, they are ideal for making sublime DIY creations. Sober and easy to wear, they appeal to both men and women. What to consider the creation of pretty unisex jewelry or couple jewelry! In addition, they are less fragile than glass pearls, cultured pearls or gemstone pearls. Natural or tinted with different colors, they bring a touch of authenticity to your homemade jewelry. You can even personalize them as you wish by customizing them with a little acrylic paint, glitter, tissue paper ... Are you wondering how to make a necklace with wooden beads?
