How to contribute to the reconstruction of Notre Dame Cathedral?

After this frightful night of April 15, 2019, the whole world is heavy.

This great lady who has survived more than 850 years of history, who stimulated the imagination of our children, who amazed young and old by its size and colors or who has stoked our cultural curiosity ...

For her and for the preservation of heritage, it seems obvious to us to weave for the good cause.

The entire Perles & Co team is deeply moved and saddened by this news.

This is why we are launching a solidarity call until June 30, 2019: you can contribute to the reconstruction of Notre Dame Cathedral in Paris up to 1% of the amount of your order Perles & Co.

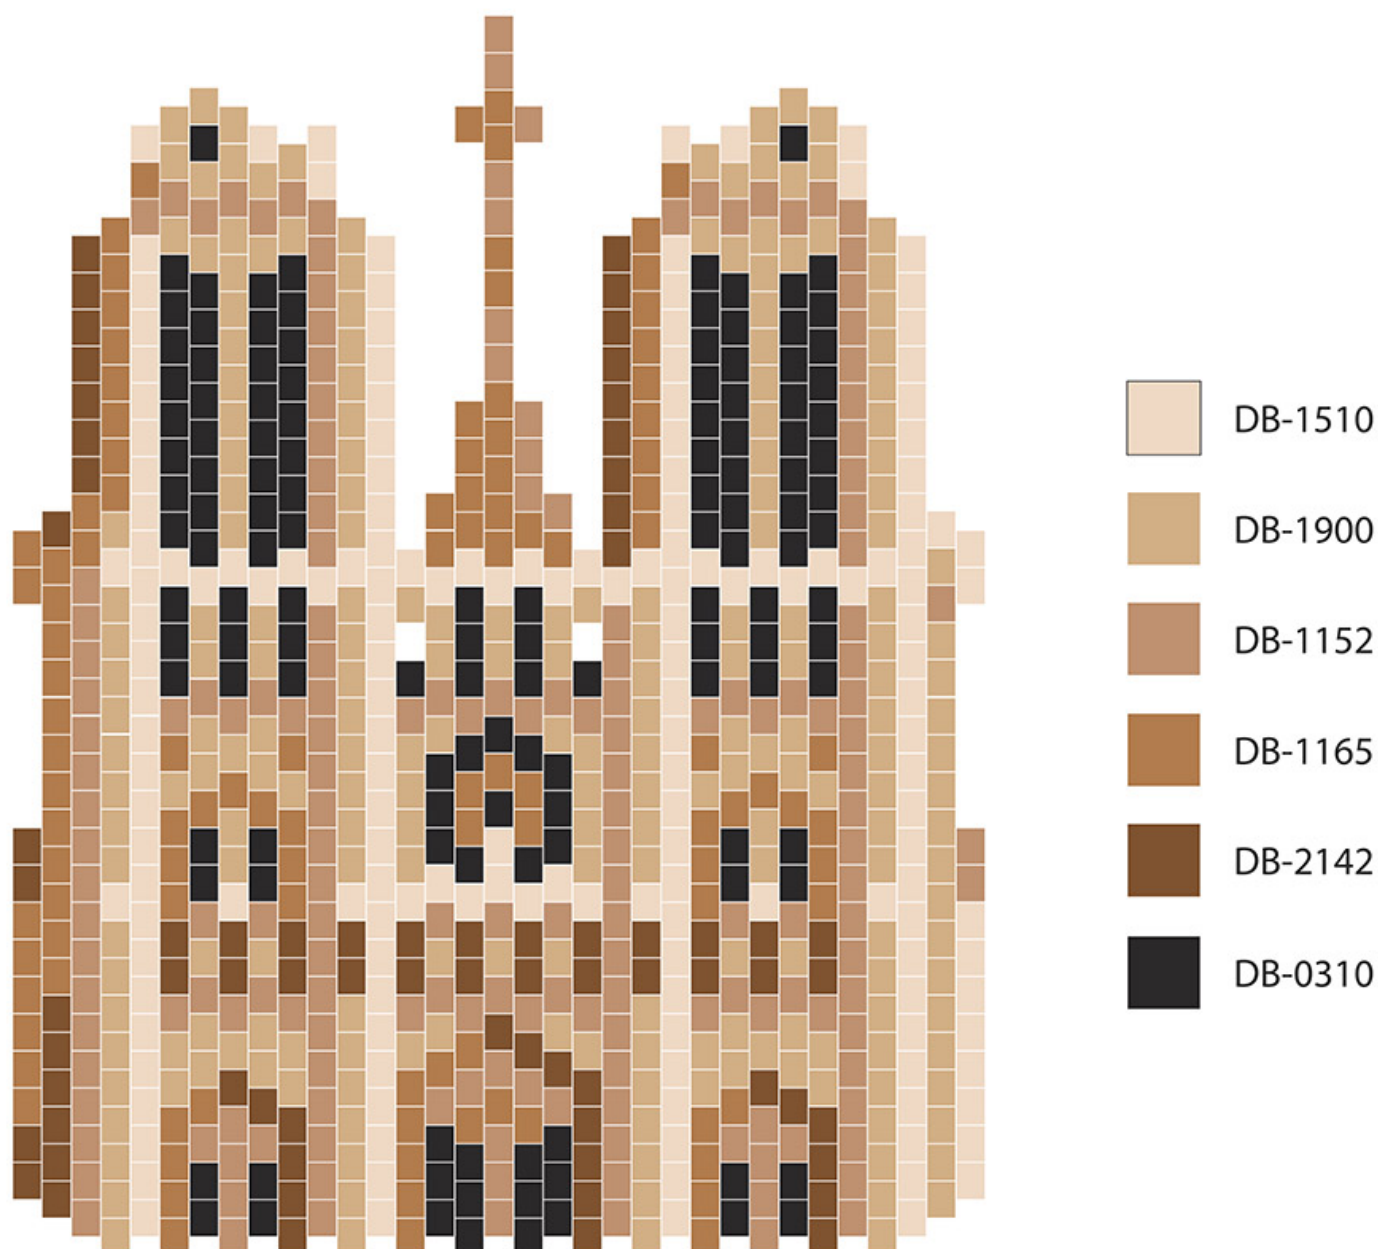

How to do ? When ordering, simply choose the option "Gift" instead of choosing your gift.

Perles & Co is committed to donating all funds raised to the Heritage Foundation for its international collection .

Take part in our action with #jetisseourname

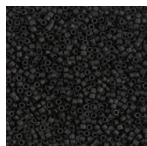

This grid can be woven with the technique Brick Stitch or Peyote. The most common is to use Brick Stitch for this type of weaving. If you do not know how to weave Miyuki beads with a needle, we advise you to watch these videos:

- Unicorn Weave Brick Stitch Beads Miyuki
- Miyuki cuff bracelet woven in Peyote Impair blue and mustard

## Which material to use for Miyuki weaving grid Cathedral Notre Dame de Paris?
