

## WOODEN PYROGRAPHED EARRINGS

By : Karine Barrera

Easy

0 minutes

Make pretty wooden earrings with pyrographed ethnic patterns and some touches of acrylic paints to add color. The bag of triangular pendants contains 10 pieces, you have what you do 5 pairs of earrings. We have in the shop a whole category of [wooden pieces](#) that you enjoy creating jewels and decorations.

Step 1

Prepare your material, choose the medium beveled tip to screw on the metal part of the pyrograver. Make the drawing of your earrings in pencil.

2nd step

Light up your pyrograver 3 minutes before using it. Iron on all your strokes using the tip of the tip, tilt your tool and use the tip dish to blacken your pattern.

Step 3

You can fill in some areas of dots or scratches with the pyrograver.

Have fun painting parts of your designs with acrylic paint and very little water. You can cover hatched areas with paint and then iron with the woodburner once the paint dries.

Step 4

Iron with the pyrograver on the patterns covered with paint.

Step 5

Make the assembly of your wooden triangles pyrographs by adding a ring then an ear hook.

## Which material to use for Wooden pyrographed earrings?
