

## GINKGO LEAF EARRINGS IN PYROGRAPHED LEATHER

By : Karine Barrera

Easy

0 minutes

*How to make leather jewelry?*

In this tutorial we will create a pair of ginkgo leaf earrings in leather and imitation leather pyrographed. Leather is a very easy and pleasant element to pyrograve, the fact that there are no veins or streaks as for the wood allows us to make more precise features. We used for the sheet form a laminated plate with several ginkgo leaves with different sizes but in this range you have the choice of patterns. The leather used comes from a bag with several leather falls with different thicknesses as well as several colors.

Step 1  
Put your template of leaves on the back of the leather and imitation leather, trace the outlines of your forms.

2nd step  
Cut out all your leaves with a chisel.

Step 3  
Connect your pyrograver 2 minutes before using it to keep it warm. Draw lines on the leather from a point in the middle up on your sheet. Pass the pyrograver on the edges of the leather with the flat side of your mouthpiece.

Step 4  
Make points with the tip of the pyrograver on the faux leather, pass as on the leather piece on the borders. Beware the imitation leather marks very quickly.

Step 5  
Mount your leaves in earrings by superimposing the tails of the 2 leaves then cutting the end so that the stem is about 3 mm. Place a flat lace clamp on this part, press with a pair of pliers on the sides of the tip to tighten it and modify its flat shape in round shape. Pass through the hole of the lace clamp the loop of the ear hook. Close the loop with a pair of pliers.

## Which material to use for Ginkgo leaf earrings in pyrographed leather?

### SUPPLIES

Balls earwires 18mm Bronze tone x100  
Ref. : BO-352  
Quantity : 1

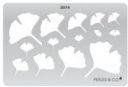

Assortment of 3 sheets faux-leather 16x20 cm Gold  
Ref. : CUSTO-257  
Quantity : 1

End clip 3mm bronze tone x10  
Ref. : OAC-089  
Quantity : 1

Luxury Leather Waste in different colors, sizes and textures x 400g  
Ref. : PERS-963  
Quantity : 1

Rigid Template for polymer clay 152x100mm Ginkgo  
Ref. : TOOL-188  
Quantity : 1

Pyrograver for wood, leather and cork + 9 Tips  
Ref. : TOOL-818  
Quantity : 1
