

DIY BLUE TAGUA SEED EARRINGS

By : Perles & Co

Easy

0 minutes

How to create a jewel in tagua seed?
How to make a pair of earrings quickly?
Do you know the tagua seed? Here we are all fans
It is a real alternative to ivory, it is also called vegetable ivory.

In this very easy tutorial we will make a pair of earrings with a blue tagua nut disk.
Here we do not stick, we do not sew, we put it all!
To make this pair of dangling earrings you will need:

- From ear hooks.
- Drop-shaped earrings 23 x 45 mm.
- Irregular insert washers.
- Brass interlayers in the shape of a flower.
- 2 discs / rondelles in tagua nuts (this disc exists in several colors)
- A flat clamp.

Now that you have all the material in front of you, you just have to assemble.

Start by opening your earring stand by pulling slightly on the wire.

- Thread to start the flower interlayer.
- Then put on the uneven disc.
- Pass your disc in tagua nuts.
- Add a second irregular disc.
- And finally a second interlayer flower.

Once you have donned all the items, close the earring bracket by reinserting the thread into its insert.

All you have to do is add your ear hook.

For this nothing more simple:

Open the ring at the base of your hook.

You do not know [how to open an open ring](#)? Do not worry, we'll explain how.

Now that you know how to open a ring you just need to assemble the hook with your earring bracket.

Be careful not to go wrong

And now your earrings are ready, make them dance on your wild summer nights.

Which material to use for DIY blue tagua seed earrings?
