### *How to make a UV led resin shaker?*

How to make your UV led shaker?

What is a shaker? It is a small decorative object that can be in multiple forms: a cat, a globe, a transparent heart that contains water and in which we slide several elements. We can shake it to see what we have integrated. This can be small beads, micro balls, glitter, slices of canes, whatever you want. You have the choice in our range molds for resin between several molds that you will use to create your shaker, cloud, umbrella, flower, heart. You can integrate everything inside except what fears the water like the whole series of dried flowers for example. Choose sequins for plastic or resin parts. There is for the UV resin mini transparent molds that will allow you to make small shells or stars, do not hesitate to take a look.

Steps :

- Step 1

Pour your LED UV resin into the 2 parts of the mold. Catalyze under 60 seconds each part.

- Step 2

Assemble both parts with UV Led resin.

-Step 3

The resin is poured for the second time into the solid mold. Catalyze 60 seconds.

- Step 4

Prepare a mixture of water and water clarifier.

- Step 5

Fill the resin heart with water and glitter.

- Step 6

Put a net of resin on the edges of the third part of the shaker, put it on the set, press well, cure 60 seconds. Make sure that there are no water leaks, if not pour resin on the open part and put again under UV Led lamp.

For a nicer finish, cast a thin layer of resin on the set.

## Which material to use for UV resin shaker?

### SUPPLIES

UV-LED Resin Hard Padico - Star Drop x30g  
Ref. : OTL-348  
Quantity : 1

Bottle of ultrafine Effect Glitter powder x10ml - Iridescent Pastel Pink  
Ref. : OTL-484  
Quantity : 1

Assortment of 6 mm glitter sequins - Heart - Multicolored x15g  
Ref. : PERS-978  
Quantity : 1

Mini UV LED lamp for DIY creation with UV LED resin x1  
Ref. : TECH-118  
Quantity : 1

Shaker Silicone mold in 2 parts - Globe shape - Resin x1  
Ref. : TECH-430  
Quantity : 1

Fimo additive for Waterglobes/SnowBrillants/Snowstorms x10 ml  
Ref. : TOOL-600  
Quantity : 1
