## steps

### ★ Step 1/6

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Take a bar from a loaf of Fimo dough. Knead the dough into a ball, place in a silicone mold and roll to flatten.
<? endif; ?>

### ★ Step 2/6
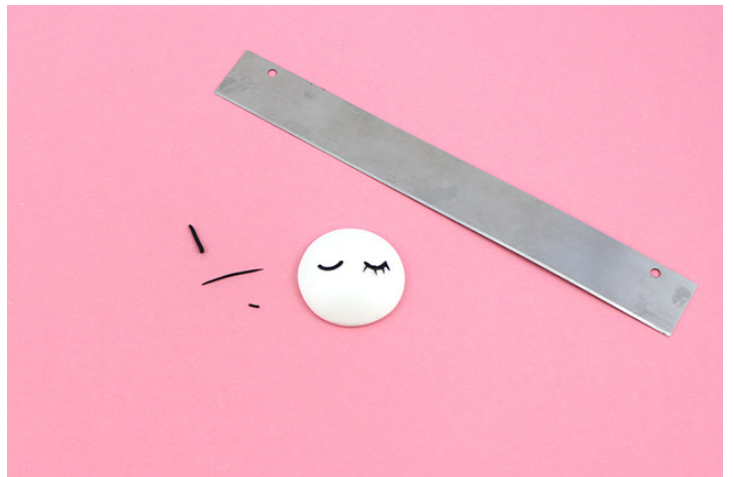

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Take some black dough and roll a thin thread under your index finger. Cut this thread into 2 equal lengths to make the shape of the eyes. Work another thread, even finer, and cut it into 10 pieces to form the eyelashes. Gently place the eyes on the white cabochon, pressing lightly with your fingers to fix them to the clay.
<? endif; ?>

### ★ Step 3/6

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Make small flowers by making 5 dark-pink balls and twice 3 balls for the lighter ones. Crush the balls between 2 sheets of baking paper to make them as thin as possible. Wrap the first petal around itself, then arrange the other 2 petals around it.
<? endif; ?>

⭐ Step 4/6

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Cut 2 triangles from a piece of white dough to make the ears. To make the horn, roll a small cylinder under your index finger, and grasp the dough at both ends to make a tendril.
<? endif; ?>

⭐ Step 5/6

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Scrape a piece of pink dry pastel into a powder and use a brush to color the cheeks. Put a little golden powder on the horn. Bake your unicorn in a conventional oven at 120 degrees for 30 minutes.
<? endif; ?>

⭐ Step 6/6

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Glue your unicorn to the gold sequin, pass a ring through the hole and then thread a chain through the ring.
<? endif; ?>
