How to make a Miyuki wrap bracelet?

How to make a Miyuki wrap bracelet?

The Wrap bracelet technique is very fast to learn. We use the same method throughout the creation of the bracelet. You can take all kinds of pearls, bohemian facets, rockeries or Miyuki Delicas pearls. This requires two leather cords or two semi-rigid cords and a softer yarn. The weaving thread will make it possible to wedge the beads between the two parallel leather cords. It is knotted at the beginning on one of the cords, we put the pearl and place it between the two cords. The weaving thread is placed behind the cords and then comes over the second cord and goes back into the bead in the other direction. The pearl is thus blocked between the cords.

We have several models of free wrap bracelets available to you:

- 5-row Miyuki Leopard Wrap Bracelet
- Multirang wrap bracelet 5 rounds with faceted beads mini hematites and Lapis Lazuli
- Tuto Leather Wrap Bracelet with Miyuki Beads and Gemstones
- 5-Lap Wrap Bracelet with Miyuki Delicas Beads, Amethysts and Leather Cord by Miss Wrap

This model has the distinction of having three Shell Beads shell-shaped glass beads in the center of the bracelet. Their blue-green reflections are typical of the Kawaii style "Mermaid" or mermaid in French. Because we all dreamed one day to walk the oceans with our friend the fish and to have scales instead of legs! No ? In any case for a walk along the beach with a white tunic or associated with light blue jeans you will be the fashion mermaid this summer!

Shell Beads are also available in other colors so feel free to check out our range.

1. Cut 2 m of leather cord and 1.5 m of weaving thread. Fold the leather cord in half, thread the button and place it in the center. Tie a knot with the cords closer to the button.
2. Tie the yarn with a double knot at one of the cords and near the button.
3. Thread two Miyuki 15/0 seed beads. Pass everything behind the two cords and place the beads between the two cords.
4. Pass the needle with the weaving thread over the second cord and into the beads. Tighten. Thread 3 seed beads and repeat these last two steps.
5. The first set of beads is composed of 3 faceted bohemian beads 3 mm silver and 3 rows of 3 Sterling Silver 15/0 seed beads repeated over 16.5 to 18 cm depending on the size of your wrist.
6. The second of 42 facets 4 mm Crystal Capri Gold.
7. The third 14 to 15.5 cm rows of 1 seed 15/0 sterling silver, 2 Miyuki delicas Opaque White and 1 other rock 15/0.
8. You will then attach the Shell Beads in the center of the bracelet with a new thread that you will tie to the desired location.
9. The fourth sequence consists of a Miyuki weave of 3 pearls height 16 to 17 cm. Find the diagram below.
10. The last sequence consists of 3 pearl pearls 4 mm and 1 pearl facet 4 mm Crystal Capri Gold separated by a row of 3 seed beads 15/0 Light Caramel Ceylon.
11. Then make a knot forming a loop in which the button passes easily does not pull back too easily.
12. Put a tip of glue on the knots.
