

## DIY MULTI-ROW ANKLET AND AMAZONITE GEMSTONE

By : Perles & Co

Intermediate

0 minutes

If you're wondering which anklet to wear this summer, the anklet, also known as anklet or anklet jewelry, is back on trend! Who doesn't have a summer anklet? There's something to suit every taste, from the very thin to the very thick, from the one that just dresses up the ankle to the one that adorns the ankle, the foot and the toes. Ethnic, chic, in silver or gold, with chains or shells! The choice is yours!

Here's a multi-strand anklet that's more ethnic, even Oriental, to give you the air of a Greek goddess. Barefoot, in sandals or pumps, this golden anklet will mark your personality and dress up your feet all summer long. You'll be hard pressed to part with it!

Personalize your anklet with the gemstones you love: you'll find a wide choice of faceted drops and natural stone cabochons on our site.

Jewelry mounting is something everyone can do. You don't need to know any special techniques! All you need is a set of three jewelry pliers: a pair of cutting pliers, a pair of round-nose pliers and a pair of flat-nose pliers. Once you've got what you need, you're ready to start making jewelry!

We love to see the creations you make inspired by our tutorials, so don't hesitate to share them with us on our social networks with #Perles&Co!

## Which material to use for DIY Multi-row anklet and amazonite gemstone?
