How to make an anklet chain yourself with pendants charms for women?

Hot in front! Take out your little ones! But no matter how! After the polish, think of the little touch of glamor ... the ankle! Feminine and elegant, it's up to you to decorate it with little charms that you like.

On mine, I chose the theme of the sea: shells and crustaceans for a total summer look and boho chic .

With my flat dresses and my sneakers, it's just great! The essential jewel of your summer outfit, made in less than 15 minutes and customizable at will.

However, be careful to leave before bathing and shower for a longer period of time.
Choose preferably Gold Filled charms or gold plated charms that will not oxidize!

Let's go we detail you how to do in this DIY jewelry tutorial (Do It Yourself):

1. Cut about 25 cm of matte golden oval chain with your cutting jewelry pliers
2. On 9 matte gold round head nails, hang each sea-themed charm and then put on a pearly round bead, cut your nail to leave about 10 mm before closing your nail, forming a loop with the help of the round clip
3. Hang your charm nails at regular intervals on your oval chain
4. At one end of your chain, attach a carabiner clasp with an open ring and your flat and round jewelry clips.
5. On the other end, come and fix 5 open rings in matte gold (this will be used as an extension chain to adjust your ankle at the ankle you want)
6. For the touch of elegance, come hang a flat head nail containing an oval pearly pearl following your rings with the same technique as in step 2
