How to make XXL earrings?

How to make XXL earrings?
 How to use a sequin as an ear stud?
 The Autumn / Winter trend is at XXL and 70's.
 We have big earrings and synthetic materials such as acetate or resin.
 We propose you here to make a pair of top trend earrings in less than 10 min.
 The turtle shell pattern does not go out of style, it even improves and spreads over new colors like here black and beige.
 So let's use and abuse scales!
 This tutorial is a simple editing and you will only need a clamp to open and close your rings.

The interesting detail discussed in this tutorial is how to use a sequin to make a pillow?

• Step 1

Group all the material you need and the components of your earring.

• 2nd step

Wear your ear studs, and apply basulith or E6000 plus glue on the flat surface.
 Then you just have to put your sequin hole down.
 This means that the stem of your nail is opposite the hole.
 Be sure to wait at least 12 hours for the glue to dry before putting on your earrings.

• Step 3

Here you are at the last step!
 Simply connect the 2 parts of your earring with an open ring.
 That you will open and close as explained in this data sheet how to open a ring.

• Step 4

Go out quickly to show off your new creations !!

Which material to use for XXL tortoiseshell earrings?
