How to paint Easter eggs?

Step 1 :
Using the foam brush, paint the entire surface of each egg with the craft paint, applying 2-3 coats as needed for even coverage. Allow paint to dry completely.

Step 2 :
Pour the glue Mod Podge into a medium bowl, and dip the bottom portion of each egg into the bowl, using the screw eye as a handle as you work.

Step 3 :
Pour a generous amount of glitter over the Mod Podge, shaking off any excess.

Step 4 :
Keep the glittered portion from becoming smudged.

Step 5 :
When the Mod Podge is dry, use the paint pen to draw and doodle various designs over the top portion of each of the painted eggs, as shown.

Step 6 :
When the paint is dry, you can also loop a piece of ribbon through the screw eye, and tie in a knot for hanging.

In no time at all, you've got beautiful painted eggs perfect for hanging on an Easter tree, or even placing on a mantel, wreath and more!
