

MOON AND RHINESTONE EARRINGS

By : Karine Barrera

Easy

0 minutes

Here is the pair of earrings that will be the essential accessory to your Christmas party. We are in the trend of "jewels" using golden star-shaped and moonstones. Rhinestones add shine and light to these jewels, all we need for our parties.

Step 1
Take your three golden elements, the moon-shaped pendant, the star stud and the pendant with rhinestones. Connect these three elements by adding two golden open rings between each part. You will need four small rings for one loops, eight for the pair.

2nd step

Use glue for rhinestones to completely cover the surface of moons of rhinestones to stick in crystal color. Do not put all the glue at once, step by step to prevent the glue from drying out before you deposit your rhinestones on the surface. There is a tool to help you position your rhinestones called crystal katana. The black head of the tool is slightly sticky without having a product on it. Just put this head on the rhinestone so that it adheres to its contact, you can then position it where you want and direct it if necessary with the other side of crystal katana is a small metal rod.

To make this tutorial colorful you can change the color of rhinestones to stick while remaining on the two smaller dimensions, rhinestones of 1.8 mm and those of 2.6 mm.

Which material to use for Moon and rhinestone earrings?

SUPPLIES

5X0.7mm Open Jump Rings - European-made -fine Gold plated x50
Ref. : ACC-396
Quantity : 1
