

## MINI-HOOP EARRINGS WITH PEARLY BEADS

By : Karine Barrera

Easy

0 minutes

This month we have chosen to highlight jewelry made of silver metal or silver or stainless steel. We offer earrings that are easy to create by putting together a pair of hoops or sleepers with a charm.

The trend for mini earrings is well marked at the moment. We have chosen to suspend a pearly pearl in each ear, the pearly pearls are glued to a cup which can be suspended thanks to its hole. The diameter of the wires of the hoop earrings or of the earrings is less than the diameter of the hole in the cup.

Pearly pearls are sold in sachets of 4, which is why we used two different finishes, creoles and sleepers.

## Which material to use for Mini-hoop earrings with pearly beads?
