How to make a 925 silver bracelet bangle?  
How to make a silver and leather bracelet?

Today we are offering you to make a 925 Sterling Silver bangle. Yes yes, you heard of Silver! And for that, you can thank our little finger ...

As you know, at Perles & Co we are rather a golden team but we heard about the wish of some of you to see more tutorials on silver jewelry. So to make you happy, we decided to make it the theme of this first month of the year. Do you validate?  
Find some of our other silver jewelry tutorials:

In this tutorial we show you how to make a bangle in 925 Silver and glittery leather to shine all year round.

Beginner? Do not panic, nothing could be simpler and faster to make this tutorial: a pair of scissors and [jewelry glue](#) are enough.

You can obviously choose [other colors of 5 mm leather laces](#) and [other colors of thread](#) on our site to make a bangle in accordance with your style!

Come on, we tell you how to do it!

The stages :

Step 1 : Cut 2 lengths of about 25 cm from your thread. Insert them into the holes of the rod and cross the ends inside the stopper bead. Insert the two wires at one end into a small 925 silver bead and tie a knot. Repeat on the other side.

Step 2 : Cut a very small length of your leather lace (about 5 cm) to place it in the center of your rod. You can adjust this length according to your preferences. Attach it to the rod using hasulith glue and allow it to dry.

Step 3 : Then cut 2 lengths (about 25 cm) of the silver copper wire. Place a dot of glue at the end of the leather lace to secure one end of the wire. Twist it around the bangle and the piece of leather to hide the joint. Repeat on the other side. Let it dry.

Here, your rod is ready to be worn. You can tighten the fastener with the stopper bead. So, do you like?

Do not hesitate to share the result of your creation by posting a photo on our social networks: [our Instagram page](#) and [our Facebook page](#)

Which material to use for DIY Bangle, leather and wire wrapping bracelet in 925 Silver?
