*How to make a feather mirror?*

How to make a Ajip hat mirror?

We offer you a little transformation. We had already proposed a tutorial to make a [beaded and feathered](#) Ajip hat of his small name. Today we offer a small variant that has a practical side. A Ajip hat style feather mirror. You can use the space to match your mirror by finding [glue glue](#), [feather ribbon](#) and [glue glue](#) on our site. For those who had already made the first version, nothing more complicated. For the others, don't worry it's very simple. All you need is a [gold ribbon](#), your [glue glue](#) and a few [feathered](#) as when you go to sleep!

Step 1: Locate the center of your plate, to position the mirror easily.

Step 2: Glue the mirror with a few dots of glue distributed over the diameter of the circle. This operation requires speed so that the glue does not dry in the meantime.

Step 3: Place and glue the first ribbon of feathers along the edge of your cork board. For a subtle effect, glue your feathers upside down. Once the circle is closed, cut the ribbon if necessary.

Step 4: For the second row, repeat the same operation.

Step 5: Put the band of ribbon in the center of the mirror. Once the circle is closed, cut the band and harmonize the finish.

Now your mirror is ready to be used. What does it give you?

Do not hesitate to show us the results of your creations by posting your photos on our social networks or by tagging us on your publications: [@perlesandco](#) or [perlesandco](#).

## Which material to use for DIY Juju hat feather mirror?

### SUPPLIES

Ruban de plumes pour la customisation et création DIY - 8-15 cm - Beige x1m  
Ref. : FCU-515
