How to make a multirang bracelet?
How to create a trendy bracelet with faceted pearls?

Today we're back to basics! We invite you to make a white and black multirange bracelet with us! No doubt about it, color level is everywhere! So whatever your outfit, the finesse of this bracelet will bring detail to your look.

A nice mix of small faceted Czech glass beads : white, black and gold to remind the color of the finishes. You can obviously adapt the colors according to your desires by finding our whole range of [2mm faceted glass beads](#) .
Nothing prevents you from playing with the quantities and adding or removing rows to your bracelet. In the summer version, this jewelry can be made a little longer in order to slip on the ankles when they are out.

This piece of jewelry is accessible to all and can be made by a beginner in the creation of jewelry provided that they are provided with a set of [pliers](#) . You will also find a few reminders on the basics of jewelry creation by consulting [our technical sheets](#) .

You are ready ? It's yours..

The stages :

Step 1 : Prepare your material by cutting 6 pieces of chain of unequal sizes (between 3.5cm and 5.5cm) This creates a gap between the different rows of pearls. Also cut 3 lengths of about 15cm of nylon c-lon thread.

Step 2 : Attach the end of one of the wires to the end of one of the chains with 3 single knots. Start threading faceted glass beads by varying the colors to obtain a result that you like. Attach the wire to one end of the chain as above. Cut and burn the ends of the wires. Repeat the operation 2 more times, varying the colors to obtain your three rows.

Step 3 : To finish, slide the ends of your 3 rows in a single ring to connect it to the clasp. Repeat on the other side to connect to the extension chain.

Your bracelet is now finished! So, what do you think ?

Share with us the result of your creation by posting a photo on our social networks: [our Facebook page](#) and [our Instagram page](#)

Which material to use for DIY Multi-strand bracelet with faceted glass beads?
