0 minutes

What earrings to shine in spring?  
It's time to celebrate spring with these golden hoop earrings and their colorful glass beads.  
We love the imposing side of these earrings, indeed the XXL is still relevant, and the softness of these delicately intertwined colors.  
Opt for these tangy creoles and enhance your outfits with these small golden creoles with thick threads.  
Have you decided to let yourself be tempted?  
So gather the material necessary to make these original hoops.  
For this you will need:  
• Cutting pliers (if you only want to make a loop with your rod)  
• Round nose pliers (to flatten everything)  
• Round nose pliers (to easily wind the wire of your rod)

Step 1:  
For the realization of this pair of earrings we chose glass beads of 8 and 6 mm  
If you don't like the colors, you can choose the ones that suit you best from our wide selection of glass beads.  
For this first step, thread a 6 mm bead on your ball head rod.

Step 2:  
Wedge your pearl well at the end of your round head rod with a finger and make a loop around your creole.

Step 3:  
Using your round-nose pliers, pull on your rod and wrap it between your pearl and the Creole.  
In the same way as you would make a petal ring.

Step 4:  
Thread an 8 mm bead onto your ball head rod.

Step 5:  
Do as for the first pearl.

Step 6:  
For these earrings alternate a 6 mm glass pearl then an 8 mm glass pearl.  
5 pearls of 6 mm and 4 of 8 mm in total.  
You can add more, but watch the weight of your earring.

## Which material to use for Hoops with tart glass beads?

### SUPPLIES
