Step 1:  
Start making your necklace by cutting a 40 cm chain and the two terminations with the two rings (guides 1 and 2)

Step 2:  
Thread the beads into the mouth of the pliers - 1 threaded 50 beads into 10 rows, by following the scheme:  
20 beads  
40 beads  
40 beads  
20 beads

Make a loop on the other side of the beads with a round round pliers. It is useful to cut off the first half of the pliers.

Step 5:  
Link the beads in the necklace then add a second chain at the bottom. According to the design, you may choose to join a link with a bead. For the top part, the top has been done according to the scheme 1 (40 / 1 line) and the bottom has been done according to the scheme 2 (40 / 2 lines). Finish by joining the two chains with one ring on each side.

Step 8:  
Eventually, join the assembled chain to the chain with the second chain. You can choose one or several colors and place them organized or randomly.
