To realize this wonderful earrings, you will need 2 flat pliers, a round plier, a cutting plier, a needle and some glue.

Step 1 :
We beginn with the realization of the knot in parachute cord (2m cord for each Knot) You will have to follow these steps:
Tip ! To prevent the cord from fraying during weaving, slightly burn the ends with a lighter.

Step 2 :
Finisch the Knot while you cut the excessive thread und burn the ends
Fix all this with 2 sewing point thanks to your needle and C-LON AA .

Step 3 :
For the upper part of the jewel, take 2 earstud, cut ca. 2mm from each stem with your cutting plier and press them accross the knot and fold them behind the weaving with a round plier .

Step 4 :
Cut then 2 pieces of chain (5 and 7 cm). Dangle an oval pendant in the middle of the 7cm with a jumpring . then dangle all the other pendant counting 10 links between each of them .
For more precision about how to open a jumpring read this page : how to open a jumpring.

Step 5 :
Fix the bail and the earhook above your knot .

Step 6 :
Glue the PureCrystal 1088 cabochons in their settings and let dry.
Tip ! be careful not to overfill the glue when you glue the cabochons.

Repeat all this for the second earring.
That's all , your earrings are ready !

Which material to use for Blue Navy Knot earrings with PureCrystal cabochons?
