

ENTHIC BRACELET WITH DMC THREAD

By : Perles & Co

Easy

0 minutes

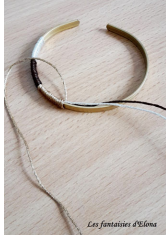

Step 1 :
Take a bracelet made of brass and start to surround the thread around it. We begin with the silver thread.

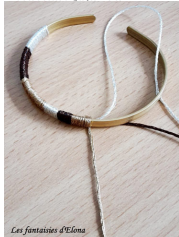

Step 2:
We take a different thread: the copper colored and we turn it on. The previous thread is under this one.

Step 3:
Take the third thread: here the bronze and weave so on next the first two threads.

Step 4:
Mix the colors according to your wishes.

Step 5:
When the weaving is finished, fix the threads with a drop of glue and let dry. Then cut the threads.

It's done

Which material to use for Ethnic bracelet with DMC Thread?
