

## CUSTOMIZATION OF WOODEN PLACEMATS WITH POMPOMS

By : Tiffanie Perles & Co

Easy

0 minutes

Summer is here ? Let's go for family meals and aperitifs with friends! Tired of always using the same place mats? You don't necessarily have to buy it. You can choose to customize them. In this little DIY decoration we give you a tip to "pimp" your wooden or bamboo place mats. This miracle solution is called pompoms! You can buy them ready-made, thanks to our decreasing prices, the more you buy pompoms and the less they will cost you dearly, or else make them yourself thanks to this [DIY to make long pompoms](#). Customize your placemats with colorful pompoms to make your table more festive and summery or with pastel or clear pompoms for a bohemian style. The material list indicated at the bottom of the page is for 2 place mats: 1 raspberry and orange and 1 blue and turquoise green. We have a string of [tassels for customization](#) to offer you. Cotton pompoms, silk imitation pompoms or gold or silver pompoms, you will be spoiled for choice.

Step 1: Cut 12 cm of yarn in the skeins that most closely match the colors of the tassels. You can also invert the colors. Pass the thread through a large needle with a large eye and then using the needle pass the thread through the center of the pompom.

Step 2: Remove the needle and make a knot of "full fists" by knotting the two strands together and tighten the knot at the base of the pompom.

Step 3: Make a double knot on the back of the table set to tie the tassel to the set. Cut off the excess wire. Leave about 5 mm of wire on each side of the double knot. Space the pompoms evenly and alternate colors.

Your placemats are finished! You can mix even more bright colors to brighten up your meal or go on neutral colors by mixing beige, taupe and off-white. Discover all our other [tutorials special customization and decoration of summer table](#).

## Which material to use for Customization of wooden placemats with pompoms?

### SUPPLIES
