Tutorial: make pearl earrings Miyuki Delicas 11/0
In this somewhat long period, but which has the advantage of giving you time to create ... we suggest that you make small tutorials allowing you to make pretty little jewels with what you have on hand.
We thought of the pearls, whose Miyuki pearls are very enjoyable in the house of beads of being cut. This is the reason why [Delicas 11/0 pearls](#), available in all colors in this period of confinement, we are therefore reinventing this pretty tutorial with the colors we have at home.
Pearls: Delicas 11/0 pearls, available in all colors in this period of confinement, we are therefore reinventing this pretty tutorial with the colors we have at home.
Step 1: Cut about 110 cm of wire. Weave the first two rows of the upper part with the people technique. You can refer to the technical sheet: [How to increase and decrease in Peyote?](#)
Start at the bottom. You will therefore have to make a decrease for the second row and so on.
Leave about 40 cm of thread aside for the second part of the weaving.
Step 2: Continue to the top to finish weaving.

Thread 4 beads and every time to make a decrease in the middle. The row begins to increase. You can take a look at this technical sheet: [How to make a beaded chain with increase and decrease?](#)

Step 4: Go back through the weaving to exit in the middle (as shown in the photo) and make the loop. Thread 5, 10, 15, 20 and 25 beads respectively on the fingers to obtain the desired pattern. Finalize this part by hiding the threads inside the weaving and then cut the threads flush.

Step 5: Now you have your first earring. To the end of the thread, thread 4 blue beads and then black. Go through the second bead. Iron a second time in the loop for more solidity. Finally, hide the thread in the weaving and cut flush.

Here, your pair of earrings is now finished! What do you think?
