

## PHILODENDRON LEAF EARRINGS POLYMER CLAY AND PASTELS

By : Karine Barrera

Easy

0 minutes

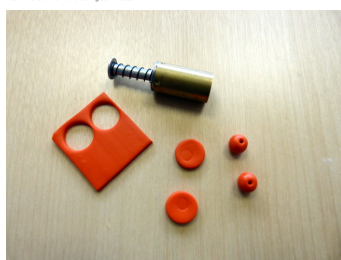

Step 1 :  
Put 2 pieces of polymer clay (fimo) into the pasta machine at the widest.  
With a rolling pin, roll 2 hearts in the same size.  
Remove 4 little triangles in each side of the heart and then remove with the y-tool pieces of fimo at the center and 4 on each sides .

Step 2 :  
Take 2 dry pastel sticks in 2 different green tones.  
With a brush, scrape them to obtain powder.  
Color the leaf with the darker green on the edges and work it with your fingers. Pastel should not enter in the veins of the leaf.  
Return your leaves and color the back side.

Step 3 :  
Take half a bar of polymer clay (fimo) orange and put it in the pasta machine at the brightest.  
With the 11 mm diamond cutter, take off 2 circles and make 2 beads with them.  
Dust the leaves and the beads.  
Put in the oven at 110°C during 30 minutes.

Step 4 :  
Let cool and varnish with lacquer back.

Step 5 :  
Stick the orange bead and the small brown bead on a gold-colored pin and with a gold-colored pin form a loop at the other side. (Reminder : show the shape a loop)  
Put a jump ring in the hole of the leaf and attach the different elements together. (Reminder : how to open a jump ring)
