How to make personalized brooches?

Are brooches a thing of the past? Certainly not! These mini-brooches can be customized ad infinitum... They can accessorize a simple T-shirt and add a touch of fun!

As for the style of the letter beads, the choice is yours! No idea in mind? Opt for our classic letter bead assortments in black, gold or multicolor. Ceramic or zamac letter beads are also available, so you're spoilt for choice.

On these little brooches you can string 3 letter beads to create a word, a message, or simply an initial. Need a little more space? Go for the Fine gold plated 38 mm brooch holder.

We've added gold Miyuki Delicas 8/0 beads to contrast with the letter beads.

Our tip: wear the brooches as an accumulation! The beads with the little hearts are so cute! These mini brooches are the perfect addition to any simple outfit!

They're also a lovely gift idea for a young Grandma to keep her grandchildren close to her heart, or for a young Mom who'll be touched by this lovely personalized attention.

Our tip: use pliers with nylon tips to open the brooch completely and thread the letter beads onto it.

Which material to use for Customizable DIY mini pins pearls letters and Miyuki Delicas 8/0?
