How to weave a line of Miyuki beads?

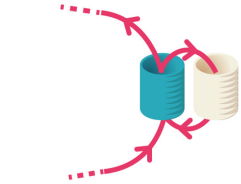

Here is a simple tutorial but which requires precision for the gluing part of the Miyuki pearl strip. If you prefer to avoid sticking your pearls on Brilliant hoops, we also have [solid ring](#) hoops without a ring to add a charm.

The oval imitation turquoise sequins used in this tutorial are also available in real [pearl imitation sequins](#) and in different sizes. They are ideal for making nice finishes on your jewelry. You can also wear them around your neck with a stacking of chains.

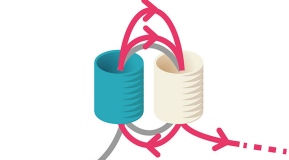

In this tutorial we will learn how to weave a single row of beads in ladder stitch or ladder stitch. This is the point that creates the base of a Brick Stitch weave. If you are interested in Brick Stitch weaving, here are some tutorials that use this technique:

- [Miyuki Brick Stitch Beads Weaving Tutorial](#)
- [For Simple Sequins Miyuki Beads Weaving Brick Stitch](#)
- [Miyuki Brick Stitch Beads Weaving Tutorial](#)

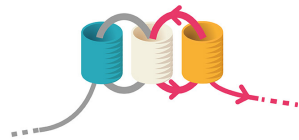

Step 1:
Cut 1.5 m of weaving thread. Pass it through a needle and thread a turquoise bead and a golden bead. Go back into the turquoise bead and squeeze the two beads together so that they sit side by side. Place the beads 10 cm from the end of the wire.

Step 2:
Go back to the white pearl, then to the turquoise pearl, then to the white pearl. Tighten the weave well.

Step 3:
Thread a golden bead and pass through the white pearl, then the golden, then the white, then the golden and tighten well. Repeat this operation by following the following sequence for the pearls: turquoise, white, gold, white, turquoise, white, gold etc. Make a chain that is a little less than the perimeter of the hoop. Here we have woven 75 beads, or 15 chains of 5 beads. Tie a knot on each side and pass the thread through the weave before cutting it. Put glue on the end of the wire so that it does not slip out of the bead.

Step 4:
Open a ring and slip in a turquoise sequin with a gold sequin on each side and close the ring around the hoop ring.

Step 5:
Lay your weave flat on a protected surface because you will be putting glue on it. Also put on plastic gloves. Apply the glue all along the weaving then lift the weaving with pliers to make it easier then apply it with your finger on the hoop by centering it. If it is not exactly centered, it does not matter, you will move it afterwards, before the glue has completely dried. Wait 15 seconds, pressing very lightly on the weave, then put the hoop on its side and wait a few more minutes before making the final adjustments. You can also stick with UV LED resin which sets very, very quickly.

Do not hesitate to show your creations on our Facebook page, in the Super club group of Perles & Co customers or on Instagram by quoting us with @perlesandco or with #perlesandco.

Which material to use for Golden hoops with Miyuki pearls and imitation turquoise sequins?

SUPPLIES

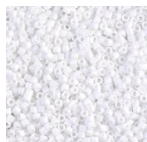

5X0.7mm Open Jump Rings - European-made -fine Gold plated x50
Ref. : ACC-396
Quantity : 1

C-Lon thread AA 0.15mm Turquoise Blue x 68 m
Ref. : C-LON-064
Quantity : 1

Miyuki Delica 11/0 DB0215 - Opaque Turquoise Blue Luster
Ref. : DB-0215
Quantity : 1

Miyuki Delica 11/0 DB0351 - Mat Opaque White
Ref. : DB-0351
Quantity : 1

Miyuki Delica Duracoat 11/0 DB1832 - Galvanized Gold
Ref. : DB-1832
Quantity : 1

37mm Hoop earrings with open ring - 37 mm fine Gold plated x2
Ref. : EAR-421
Quantity : 1

12x10mm Gemstone oval sequin - Imitation Turquoise x1
Ref. : GEM-203
Quantity : 2

Jewel Glue Strass 244 30 ml
Ref. : OUTIL-128
Quantity : 1

Smooth sequins 6mm fine Gold plated x10
Ref. : TAL-054
Quantity : 1
