How to customize creoles with pearls?

How to personalize hoops?

Whether you are on vacation or back to work, you will surely enjoy this little creative break with this tutorial to make summer hoops very easily. Relax while personalizing your earrings that your family or coworkers are sure to notice.

Choose your pearls among our thousands of references and thread them on the diamond Gold Filled hoops or 925 silver hoops. Polymer heishi beads are available in many different colors, both in solid color and in several color shades such as this is the case here with the green heishi. If you don't like synthetics we also have round and square ceramic heishi beads, which are a bit thicker than these. The starfish bead is also available in silver. In order to add a little more sweetness, add irregular shaped freshwater pearls to your earrings.

Step 1 :

Thread a stopper bead and place it on the other side of the creole. Then thread a freshwater pearl. Be careful, they may be a little difficult to pass, rotate them around the hoop or widen the hole with a mandrel or a bead reamer if necessary.

2nd step :

Thread a golden washer, 6 polymer heishi pearls, a golden washer, a freshwater pearl, a starfish pearl and put the same string of pearls on the other side so that the earring is symmetrical.

Step 3:

Slightly bend the end of the hoop with a jewelry clip 4mm from the end to keep it from coming loose from your ear. You can optionally add a rubber stopper.
