How to color polymer clay with Panpastels?

This medium is part of the family of pastels but in its composition is added a binder which gives it a stronger and more resistant composition. In the form of cups similar to a makeup palette, they are used with applicators with foam tips to be able to blend the colors together, you can of course use them with your fingers if you want to. The technique used for this earring tutorial is that of stencils and more specifically silkscreens which render on very fine and detailed polymer clay.

Step 1

Prepare a plate of dough with 3 or 4 bars of a black Fimo loaf by passing them through the dough machine at a medium notch. Put your silkscreen on it and roll the roll over the whole. Have fun putting colors on the stencil by following the repeating patterns.

2nd step

Remove your silkscreen then run it under soapy water to remove the colors, be careful at this time because depending on the brands these stencils are more or less resistant and the one in this tutorial which is from Graine Créative is delicate.

Step 3

Cut your two pattern plates in the middle, take your template, use the rectangle elongated by 3 cm, place it on the plate where you like the pattern. Press on the sides of the template to mark the dough then remove the plate to cut your rectangle by following the lines with your blade. Use you to make the ear studs of the square shape of 1.5 cm and a round cookie cutter of 1.2 cm. Bake your pieces at 120 degrees for 30 minutes.

Step 4

Use a spray varnish to fix the colors of the Panpastels on your curls.

Step 5

Drill your parts with a hand chuck or Dremel drill. Glue your nails on the disc supports of the earrings, a little trick so that it does not come off over time is to use epoxy resin. This resin can be stored in the freezer so you can take it out 15 minutes before using it as a glue. Use rings to connect your shapes together. Do not hesitate to show us your creations inspired by this tutorial.

Which material to use for Silkscreen polymer clay earrings and Panpastels?

SUPPLIES

5X0.7mm Open Jump Rings - European-made -fine Gold plated x50
Ref. : ACC-396
Quantity : 1

Flat pad earstuds 8mm Gold tone x2
Ref. : BO-743
Quantity : 2

Fimo Soft Polymer Clay 57gr Black (n°9)
Ref. : FIMO-009
Quantity : 1

Polymer clay templates 210x148 mm patterns Square/Rectangular
Ref. : OUT-852
Quantity : 1

Cookie cutters set with piston for polymer clay - Rounds 10-12-16 mm x3
Ref. : TECH-408
Quantity : 1

PanPastel -Set of 5 colors + tools - Bucket Pastels - Shaded shades x1
Ref. : TECH-812
Quantity : 1

Odif Universal all bases protection varnish Gleaming effect in spray x250ml
Ref. : TOOL-386
Quantity : 1

Silk Screen Graine Créative for Polymer Clay 114x153mm- Hindu Pattern
Ref. : TOOL-448
Quantity : 1
