45 minutes

How to make a stainless steel multi-rank bracelet?

Discover in this tutorial how to create a simple multi-rank bracelet, and get in no time a jewel that will not go unnoticed. Very simple to do, all you need is a set of pliers and open rings to get this jewel. This simple and minimalist bracelet combines a pretty rectangular mesh with our beloved Miyuki Delicas and PureCrystal Toupies. Silver and black, it's up to you to play with the shades of pearls for a jewel that looks like you. Sublimate it all with a small astro charm for a 100% personalized jewel. To wear alone or in accumulation, this jewel is perfect to offer or to offer oneself.

Which material to use for Stainless steel multirank bracelet, Miyuki delicacies and PureCrystal spinning tops?

Ref. : ATT-362
Quantity : 1

Kit of 3 pliers in Perles & Co pocket Blue x1
Ref. : OUT-336
Quantity : 1

steps

★ Step 1/5

Open the bracelet and attach the chain with an open ring at one end of the bracelet.

Cut the chain to the size of the bracelet, and again use an open ring to tie the chain to the bracelet.

★ Step 2/5

Insert the fine mesh chain into a cord clamp. Add a little glue, and fold each side down with pliers. You can now thread the Miyuki, until you reach the same length as the other chains.

★ Step 3/5

Once the Miyuki are threaded on, add a drawstring clip with a little glue, and fold each side down with pliers. Cut off the excess chain, and attach this row with an open ring at the end of the bracelet.

★ Step 4/5

Repeat the two previous steps, but this time with PureCrystal spinning tops.

★ Step 5/5

Attach the charm to the bracelet with an open ring.
