Quantity : 1

### SUPPLIES

Kit of 3 pliers in Perles & Co pocket Blue x1  
Ref. : OUT-336  
Quantity : 1

## steps

### ★ Step 1/4

Wrap the chain around your finger to make several turns. With this chain you can make up to 4 turns and then insert it into the central bead.

The number of laps can therefore depend on the chosen chain. The number of revolutions can depend on the chosen chain. Make sure to check the compatibility of the diameter of your chain and that of your central bead to calculate the number of revolutions to be achieved.

### ★ Step 2/4

Insert your chain several times into the center bead. Here you can insert it up to 4 times.

### ★ Step 3/4

Connect the two ends of the chain with an open ring and your pliers.

Make sure that you can put on and take off your ring without too much difficulty. You are always in time to adjust the length afterwards by cutting off the extra links. Adjust all the turns to the same size by pulling a little on the chains.

★ Step 4/4

All you have to do is connect your charm to the central pearl ring using your jewellery pliers and an open ring! That's it, your ring is finished ! It's up to you to play, and to decline this jewel according to your desires !
