

ELASTIC BRACELET WITH HERRINGBONE GUM EFFECT BEADS AND GOLDEN LOTUS INTERLAYER

By : Tiffanie Perles&Co

Easy

1h

Do you know the gum effect metal beads? These geometrically shaped beads have a soft, highly pigmented coating. They are very resistant over time which makes them a perfect jewel for next summer! We couldn't wait to show them to you, that's why we decided to offer you several tutorials that will match your winter outfits. Previously we had published a tutorial of bracelet in white and yellow tones with rectangle shaped beads and adjustable macramé clasp. Today here is its cousin: The elastic bracelet with herringbone and rectangle shaped beads. The elastic bracelet is a must for beginners in costume jewellery creation. Indeed, it does not require much investment in material. Here you will still need 2 jewelry pliers to open the ring of the round charm but you can also choose not to put it on. In this case you don't need pliers or any specific tool!

These beads come in 7 different colours: white, black, grey, yellow, turquoise green, pink, blue and mustard. So you can make lots of different combinations! Moreover, if you have already bought the material of the previous white and mustard bracelet, you won't need to buy the 5 mm gold washers again because they are the same ones used in this tutorial!

Adjust the number of rectangle beads in your basket to adapt the length of the bracelet to your wrist. Rectangle beads are 11 mm. In the example, there are 6 rectangle beads and the bracelet is 15.5 cm. Your bracelet should be longer than the length of your wrist + 1.5 cm.

Which material to use for Elastic bracelet with herringbone gum effect beads and golden lotus interlayer?

SUPPLIES

4X0.7mm Open Jump Rings - European-made -fine Gold plated
Ref. : ACC-367
Quantity : 1

12x10mm Round charm with epoxy resin and star pattern - Gold Tone - Mint
Ref. : BR-423
Quantity : 1

Miyuki Delica 10/0 DBM0729 - Op Turquoise Green x8g
Ref. : DBM-0729
Quantity : 1

Elastic thread 0.5 mm Stretch Magic Griffin Black x 25m
Ref. : FCU-723
Quantity : 1

Metal spacer beads 5 mm fine Gold plated x10
Ref. : MET-120
Quantity : 1

Metal slider bead Lotus Flower for 5 mm lace fine Gold plated x1
Ref. : META-445
Quantity : 1

Cubes faceted 3 mm fine Gold plated x10
Ref. : TAL-317
Quantity : 1

11x8mm Chevron Beads rubber effect zamac bead - Black x1
Ref. : TIQ-831
Quantity : 4

6x8mm Chevron Beads rubber effect zamac bead - Turquoise Green x1
Ref. : TIQ-837
Quantity : 6

11x8mm Rectangle shape rubber effect zamac bead - Black x1
Ref. : TIQ-845
Quantity : 8

SUPPLIES

Kit of 3 Pliers professional quality for jewelry - Chain nose pliers, Cutting pliers, Round nose pliers

Ref. : OTL-580

Quantity : 1

Jewel Glue Hasulith 30ml

Ref. : OUTIL-007

Quantity : 1

steps

★ Step 1/4

Place your beads on the table and check the length of your string of beads. You must make a bracelet that is at least 1.5 cm longer than your wrist. Adjust the number of black rectangles to get the correct measurement. A rectangle measures 11 mm.

★ Step 2/4

Cut 2 pieces of 30 cm of elastic thread and pre-stretch it by pulling on it. This step will prevent the bracelet from deforming only a few hours after making it. Thread the beads one by one on the first thread, paying attention to the direction. Put them back on the table each time to prevent them from slipping off the thread. Add 1 delicat 10/0 bead on each side of the lotus and before the chevrons at the end to balance the bracelet. Then thread the second wire.

★ Step 3/4

Attach the charm to the bracelet with an open ring, paying attention to the direction in relation to the lotus. You can put a point of glue on the opening of the ring to prevent it from slipping off the wire. Pass the ends of the thread through one of the rectangular beads so that the knot is hidden when you wear the bracelet. Tie a surgeon's knot with the thread ends on each side. The surgeon's knot is just like a normal knot except that instead of wrapping the thread around the other one once, you wrap it twice. Repeat the surgical knot 3 times to be sure.

★ Step 4/4

Glue the washers on the 2 rectangles in front and leave to dry for 24 hours.
