

NECKLACE BIG GOLDEN LINKS

By : Karine Barrera

Easy

5 minutes

The trend of imposing jewellery is back, the year 2021 puts the emphasis on big chains around the neck, no matter the shape of the links as long as they are golden and can be seen. Smaller chains can be worn in accumulation and the larger ones are worn with a clasp that is placed on the front of the neck like a pendant. One could also mix gold and silver on a multi-rank, it is very trendy.

Each month we offer a collection of jewelry tutorials following a specific theme, this XXL necklace is linked to the collection "oh maille god", do not hesitate to [consult the](#) other tutorials.

Which material to use for Necklace big golden links?

Quantity : 1

SUPPLIES

Set of 3 mini pliers
Ref. : OUT-918
Quantity : 1

steps

★ Step 1/1

The length of this chain is 50 cm, it is perfect for a necklace. Take two 5 mm rings, pass each of them through the last two stitches of the length. It is very difficult to open the imposing rings of this chain, it is possible to cut them with a pair of pliers, but to open and close them is another story.
