★ Step 2/5

Open 6 rings with a pair of pliers to hang the charms on your chain. You don't know how to open a ring? Don't panic, find our technical sheet *"How to open a ring to make a jewel"* by typing in the search bar of the site.

★ Step 3/5

Take each of the charms and tie them wherever you want! Close your ring tightly. A little trick: you can use closed rings or a dot of resin on the open ring to keep your charm in place.

★ Step 4/5

To finish, put the phone clip on your mobile phone shell and hang the clasp on the chain, that's it!

★ Step 5/5

You can also vary the chains and use the new plastic chains in any colour!
