

STAINLESS STEEL MULTI-ROW STAINLESS STEEL BRACELET RING

By : Lucie T Perles&Co

Easy

25 minutes

As you may have noticed, the trend is towards chain stores and more particularly XXL chains. This multi-row ring is part of the new jewelry collection entitled "Oh maille gold". Necklaces, bracelets or even a mobile phone jewel, you will find XXL jewelry to wear alone or in accumulation with other elements.

And on the fingers, what does this trend look like? We explain in this tutorial how to make a multi-row ring with a stainless steel chain bracelet.

Stainless steel requires little maintenance, it is of course stainless and hypoallergenic, these are good reasons to use steel for your jewelry. We all have a range of finishes, components and chains, treat yourself.

Which material to use for Stainless steel multi-row stainless steel bracelet ring?

Quantity : 1

SUPPLIES

Kit of 3 Pliers professional quality for jewelry - Chain nose pliers, Cutting pliers, Round nose pliers
Ref. : OTL-580
Quantity : 1

steps

★ Step 1/2

Wrap the chain 3 - 4 times around your finger to adjust the size. Open the ring with pliers and then connect your link to the other end to form your ring.

★ Step 2/2

Position your large acrylic link in the center and twist fine thread on the side to lock your link. Do this on both sides of the link.
You're done!
