

## MIXED BRACELET WITH GEMSTONES AND LEOPARD PEARLS

By : Karine Barrera

Easy

30 minutes

*How to make bracelets with beads easy?*

Make a pretty bracelet to wear in all seasons with faceted gemstone beads. These are red jasper and lapis lazuli stones, two beads in the shape of leopard heads decorate this bracelet as well as metal flower-shaped discs. Mounted on an elastic thread this small jewel is within the reach of all.

*Which material to use for Mixed bracelet with gemstones and leopard pearls?*

## SUPPLIES

Ref. : FC-763  
Quantity : 1

6mm Hexagonal Beads - Gemstone - Lapis Lazuli x15  
Ref. : GEM-411  
Quantity : 1

6mm Hexagonal Beads - Gemstone - Red Jasper x15  
Ref. : GEM-416  
Quantity : 1

Metal spacer beads 5 mm Antique Silver Plating x10  
Ref. : MET-118  
Quantity : 2

Leopard head charm 10 mm Antique Silver Plating x1  
Ref. : META-131  
Quantity : 2

## SUPPLIES

Jewel Glue Hasulith 30ml  
Ref. : OUTIL-007  
Quantity : 1

## steps

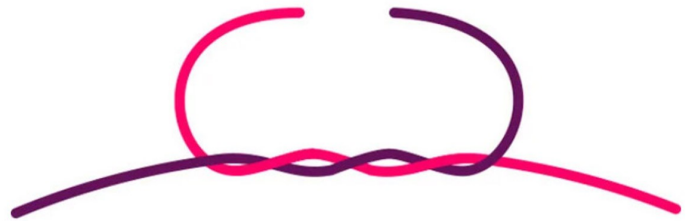

### ★ Step 1/4

Take your bags of 15 faceted gemstone beads in 8 mm red jasper and lapis lazuli. You also have two leopard heads and two bags of silver flower rings. Cut twice the length needed to go around your wrist for more ease when knotting with your transparent elastic thread. Thread the beads as shown in the photo, you can add one or two red beads where there are two placed side by side to get a larger bracelet because there are still beads.

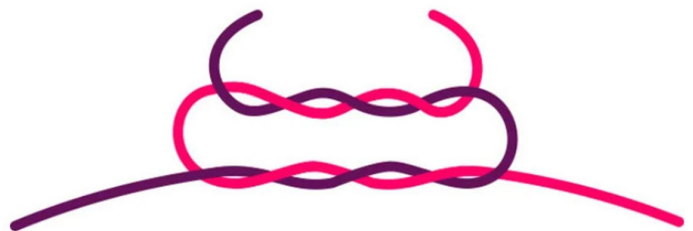

### ★ Step 2/4

To close the bracelet, we're going to make a surgeon's knot. It's like a normal knot, except instead of wrapping the wires once and tightening, you'll wrap the wires twice and then tighten.

### ★ Step 3/4

Repeat step 2 to make a double surgeon's knot. Tighten securely. Tighten the inside of the bracelet as well.

★ Step 4/4

Start by making a double knot without the knots being one on top of the other but rather placed one next to the other, then add a third one by passing the thread twice through the loop, tighten the whole thing by checking the solidity. Pass one end of the elastic thread through the leopard pearl, cut the thread that protrudes on both sides.

*Result*
