

# MIYUKI FRINGED EARRINGS WITH LINHASITA MACRAMÉ THREAD

By : Tiffanie Perles&Co

Easy

4h

How to make beaded fringe earrings?

You may have already made fringed miyuki earrings using the Brick Stitch technique? This technique was presented in this tutorial: How to make pastel earrings using Brick Stitch. Here is a new way to make your earrings. In this video tutorial, we used triangular stainless steel pendants as a support to hang our beaded fringes. You can also use triangular or square brass shapes. You need a straight surface to hang your beads on to get the same result as in the picture, but you can experiment with a drop shape.

## Which material to use for Miyuki fringed earrings with Linhasita macramé thread?

### SUPPLIES

Linhasita wax thread bobbin for micro macramé 0.5mm White x335m  
Ref. : BRF-710  
Quantity : 1

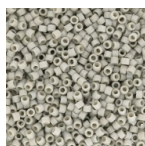

Miyuki Delica 11/0 DB1520 - Mat Opaque Bisque White AB x8g  
Ref. : DB-1520  
Quantity : 1

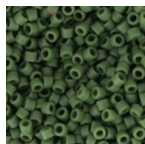

Miyuki Delica 11/0 DB1523 - Opaque Light Salmon AB Mat  
Ref. : DB-1523  
Quantity : 1

Miyuki Delica Duracoat 11/0 DB1831 - Galvanized Silver  
Ref. : DB-1831  
Quantity : 1

Miyuki Delica 11/0 DB2282 - Opaque Glazed Cactus Mat x8g  
Ref. : DB-2282  
Quantity : 1

Miyuki Delica 11/0 DB2291 - Opaque Glazed Avocado Mat x8g  
Ref. : DB-2291  
Quantity : 1

304 Stainless Steel round leverback earrings 12 mm x2  
Ref. : EAR-056  
Quantity : 1

17x19mm Stainless Steel Openwork Triangle Flower Pendant/connector x1  
Ref. : INX-132  
Quantity : 2

Stainless steel Silver Eye pin 25x0.6mm x10  
Ref. : OAC-905  
Quantity : 1

Pearly beads 4 mm White x20  
Ref. : PEARL-297  
Quantity : 1

Miyuki Nylon Beading thread B 0.25 mm White x50 m  
Ref. : UFC-493  
Quantity : 1

## SUPPLIES

Miyuki Beading needles x6  
Ref. : OAC-162  
Quantity : 1

Kit of 3 pliers in Perles & Co pocket Pink x1  
Ref. : OUT-335  
Quantity : 1

## steps

### ★ Step 1/4

Cut 6 pieces of Linhasita thread, each 16 cm long. Thread 2 delicas 11/0 beads on each thread. Fold the threads in half with a bead on each side. Ladder stitch all the beads one after the other, making sure all the Linhasita threads are on the same side.

---

### ★ Step 2/4

Attach the bead band to the stainless steel triangle. For this, your wire must come out on the opposite side of the fringes. Pay attention to the direction of the triangle because the 3 sides are not the same. Go through the first hole of the triangle and return to the exact same bead. Squeeze and move on to the next bead. Repeat this step for each bead.

---

### ★ Step 3/4

Do not cut the thread right away. You will need it to bring the fringes together. Thread on each Linhasita thread the beads corresponding to the pattern. The first line of the pattern is already done. When you have finished a fringe, cut the Linhasita thread at 0.8 mm from the last bead. Make sure that the beads are tight and stuck to the first bead, then melt the thread with a lighter. **Do this in a ventilated environment and do not breathe in the fumes.** The melted wire must create a mass against the last bead that will prevent the beads from falling. This mass must be large enough.

---

### ★ Step 4/4

Once all the fringes are done, you can bring them a little closer together by ironing the weaving thread into the second row of beads, making loops like in ladder stitch and taking the first and second bead at the same time. Finish by ironing the thread through the fringes to hide it and cut it off.
