steps

★ Step 1/2

Make a mixture of the two components of the glue in equal parts. Mix then put a drop under each carnelian cabochon of 6 mm, place one on the cap, the other on the front in the middle of the mini bottle. Add a drop of glue under the moon and place it under the cabochon. Wait at least two hours for it to dry before handling the bottle again.

★ Step 2/2

Add two rings to the ends of the chain in the last links. Pass your rings through the ones in the bottle and close them. Your pretty necklace is already finished.
