## DIY - Hanging fringe earrings

Discover in this tutorial how to make pretty fringed earrings with a boho-chic style that will match perfectly with all your summer outfits. This is a variation of a tutorial that you may already know, the India fringe earrings with sequins. You can of course as always customize this creation by changing the colors of pearls used. For this, find our wide range of Miyuki Delicas 10/0 and Miyuki seed beads 11/0 on our website. The mixture of the two Miyuki beads, Delicas and Rocailles, gives an original look and more flexible fringes.

Before you start creating this beautiful jewel, download the free diagram on the Little Hands blog: <https://www.little-hands.fr/produit/diagramme-boucles-doreilles-tissees-a-frange-tuto-du-12-03/>

Don't forget to share the result of your creation with our community of designers by posting a photo on our social networks: our Facebook page and our Instagram page

## steps

### ★ Step 1/3

In this 1st step, we are going to weave Miyuki delica 10/0 in brickstitch, starting with the biggest part (the one where we will add the fringes) according to the model that you can find here : <https://www.little-hands.fr/produit/diagramme-boucles-doreilles-tissees-a-frange-tuto-du-12-03/>  
Then once you have finished weaving this first triangle, you will weave the upper part of the earrings.

---

### ★ Step 2/3

In this 2nd step, you will weave the fringes according to the diagram that you will have downloaded in the link above.  
For the fringes, I chose miyuki seed beads 11/0 and bugles in 3mm & 6mm, I find that the rendering of the fringes is much nicer and much more flexible with these beads. (but this is only my opinion :-)

---

### ★ Step 3/3

For the 3rd step, we'll glue the half moon and add the sleeper.  
As far as I'm concerned, I always add a coat of varnish on my brickstick weaves in order to stiffen them (but I'll explain it all at the end of the video :-))
