How to make a ring with a cabochon?

The 14 mm cabochons from Puca have arrived and complete the collection! Discover many colorful and original jewels proposed by Puca. In this tutorial, she shows you how to make the Sally ring in its white and gold version, a marriage of colours that we don't praise anymore: sober but chic at the same time. But as you know, Puca is never short of ideas and she also offers you two other versions to be found at the bottom of the page: a blue and silver version and a green and gold version. But of course, the possible color combinations are almost infinite and we trust you to find yours ;)

And to accompany this ring, two other tutorials are available: the Tonka bracelet and the Takamata necklace. A set of jewels that matches perfectly.

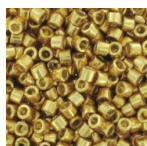

Why not go even further and make the ring stand yourself? Simply determine the size of your finger by taking a look at our technical sheet: How to know and measure your finger size? Choose your favorite weaving technique, your beads and finally the width of your ring. All you have to do is to link it to your cabochon and make a custom ring. Now it's up to you! Download the diagram and follow the different steps.

Which material to use for Sally ring by Puca with Miyuki silver and blue cabochons and seed beads?
