

## ISSAGE DE PERLES MIYUKI MOTIF MONT FUJI

By : Caticoud

Easy

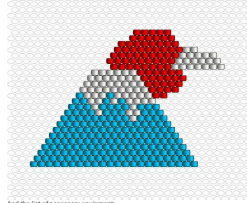

0 minutes

During a trip to Japan, **Cartoood** was impressed by Mount Fuji. He has naturally become a source of inspiration for creating a weaving of pearls.  
This pattern is made with the brickstitch technique. For beginners, please read our **technical specifications** to learn beadwork.  
This tutorial was selected by the editorial team of the magazine **creative** in the January issue of 2018. The faithful readers may have already noticed it.

A big thank you to Cartoood for sharing this quick and easy tutorial. Here is the weaving grid.

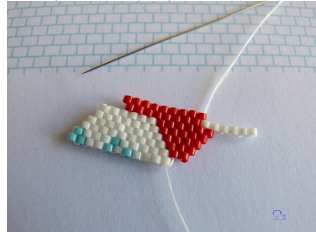

And the list of necessary equipment:

STEP 1

Start the weaving with the brickstitch technique starting from the middle of the pattern (see picture below). Dive to the top and then go back to the base.

2ND STEP

Once the weaving of pearls is finished, it is necessary to stiffen it. To do this, wrap a layer of glue on the underside and let it dry.

STEP 3

Stick the spindle holder to the weave and choose your best tweezers to display your pin and say to the girlfriends: "I did it!"

We like to see what you do with the tutorials on Perles & Co. So, do not hesitate to send us photos of your creations on our Facebook page.

## Which material to use for issage de perles Miyuki motif Mont Fuji?

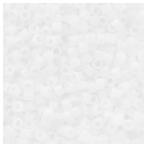

### SUPPLIES

Brooch base with 18mm pad Rhodium tone x1
