*How to make a pearl bracelet?*

schematicNew items, new items, new items! Yes, the new Delos beads are out! Do you like them? We love it! To celebrate, Puca shares a new pattern with you. Learn with them how to weave the pretty "Kelsonia" bracelet, a bracelet with a bow tie look. These glass beads by Puca with their original shapes work perfectly with any bead to create beautiful jewelry, like [this "Danie" necklace with Delos and Samos beads](#).

Learn in this tutorial how to combine Delos and Kalos glass beads by Puca with Miyukibeads to get an incredible result between the different beads. Puca added the cute touch by assembling them in such a way that they form pretty bow ties. A perfect contrast between the dark blue and gold all around your wrist. Very trendy colors that will go perfectly with a little navy blue dress or a knitted sweater.

Of course, you are free to choose other colours. Make your choice among all the [glass beads](#) on the site! Go for the sober, the coloured, all possibilities are possible with this bracelet! Opt for [an extension chain](#) to adjust your bracelet more easily.

Pstt: You prefer necklaces to bracelets, no problem. Simply weave as many bow ties as necessary to get the desired length.

Now it's up to you, download the [diagram](#) and follow the different steps step by step.
