How to make earrings with charms ?

Here is a new easy and accessible jewelry assembly tutorial for beginners. You will need a set of 3 jewellery pliers: round, cutting, flat and jewellery glue. These bohemian inspired earrings are very trendy and can be worn in gold or silver. Find the list of silver products at the bottom of the page. You can also choose other small charms. For example, you can make it a lucky charm by adding [gri-gri charms](#).

The gemstone used for the cabochons and the central charm is carnelian. This stone has a warm color and is a symbol of vitality. You can also customize your ear rings with other gemstones or imitation gemstones. Do not hesitate to go to our section [gemstones for costume jewelry](#). In particular, you could replace the carnelian by imitation turquoise stone.

We have recently released several models of candlesticks in this style with rings to add charms. Another idea would be to hang small pearls on ball studs.

These earrings will look great with a dressy outfit for the holidays or a bohemian style for everyday. For example, a long floral skirt in warm colours and a small white wool sweater.

steps

★ Step 1/2

Glue the carnelian cabochon in the earring. You will glue the very small cabochon at the very end for ease, unlike the picture.

Add all the charms with do-it-yourself jewelry rings. To open the rings, use the flat pliers and the round pliers. Grab one end of the ring with each pair of pliers. Then rotate both ends on the same axis to create an opening. Slide the charm through the opening and pass the ring through the corresponding hole in the candlestick. Close the ring in the same way, going back and forth at the end so that the two ends are close together. You should hear them rubbing together. If you have difficulty visualizing the gesture, go to our video data sheet which tells you everything about the rings for jewelry.

★ Step 2/2

Cut 2 pieces of chain 13 links long. Attach each end to the chandelier with an open ring. In the centre of the chain, add the earring with an open ring and the charm with another open ring. Glue the small cabochon and wait 24 hours for the glue to dry before wearing them.
