How to make a Christmas bauble out of beads?

You were surely waiting for it, here it is! It is the traditional Christmas ball made of glass beads by Puca. You have certainly already, for the most impatient of you, finalized your festive decoration and placed the last ball on your tree (at least, that's what you thought!) but... Puca shares with you today his scheme to create your ultimate Christmas ball.

And yes... When some people like to keep their traditional Christmas tree decoration from one year to the next, others prefer to either change everything or add a new handmade decoration and embellish their decoration over time. This is what Puca offers here to our favorite weavers. Each year, a new ball to hang on the tree or to integrate on the table decoration.

Here you can find Puca's flagship beads: Kalos, Helios, Minos and Piros in new colours for a vibrant mix. As you know, the most beautiful things are those made with love, so let your imagination run wild and choose your favourite colours to make this festive jewellery.

And for fans of beads or Christmas, check out the Christmas ball tutorial by Puca 2020. And for those of you who are getting into handmade holiday decorating, check out all our other Christmas decorating tutorials.

It's up to you! Download the diagram and get started. Don't hesitate to show us the result by posting a photo on our social networks.
