

## EMERALD FLOWERS BRACELET WITH PURECRYSTAL SPINNING BEADS

By : Tiffanie Perles&Co

Easy

1h

### *How to make a bracelet with crystal flowers?*

Discover or rediscover the technique of beaded flower bracelets. This technique allows you to make small flowers of 6 petals with seed beads. For a change, we also used this technique with PureCrystal tops. This gives a chic effect to the bracelet. You can wear this pearl and crystal bracelet on its own or stacked with other fine bracelets. Between the beautiful hues of 3mm crystal bicones and the shades of Miyuki 11/0 seed beads, you can combine colors endlessly and create your own style. The small PureCrystal spinning tops have beautiful reflections. Some of them are available with special finishes, such as AB finish which gives the spinning tops rainbow reflections. In the sunlight the result is sublime.

This technique is accessible to beginners and will allow you to create a beaded bracelet in about 1 hour. No need for weaving needles; the 0.25 mm nylon thread used is stiff enough to be threaded through the beads without the use of a needle. However, you will need pliers to open and close the clasp ring.

Want to make beaded flower jewelry with another technique or in another style? Here are two other tutorials that you might like:
