

## GEOMETRIC POLYMER EARRINGS

By : Karine Barrera

Easy

1h

*How to easily make geometric shaped polymer clay earrings?*

Create two pairs of geometric earrings with different colors of polymer clay. Prepare your colors by running them through the dough machine to soften them and get plates of colored dough of the same thickness. Have fun cutting out round or elongated pieces of different sizes with new cookie cutters. Assemble the different parts together following the steps so that they are well welded and then repeat the same pattern by replacing the black with white so you get a winter model and another more summer or spring. Simple ear studs glued to the back of the top of the naked semicircle will be enough to finish this jewelry.

## Which material to use for Geometric polymer earrings?

### SUPPLIES

Elements to be glued or resin-coated - Marine theme - Gold Tone x1  
Ref. : ATT-107  
Quantity : 1

Flat pad earstuds 8mm fine Gold plated x4  
Ref. : BO-461  
Quantity : 2

Cernit Number One 56gr Black (n°100)  
Ref. : CERNIT-051  
Quantity : 1

Cernit Number One 56gr Opaque White (n°027)  
Ref. : CERNIT-068  
Quantity : 1

Cernit Number One 56gr yellow ocer (n°746)  
Ref. : CERNIT-104  
Quantity : 1

Cernit Polymer clay with ceramic finish - Opaline 56 gr Magenta 460 x1  
Ref. : CERNIT-166  
Quantity : 1

Polymer Clay Fimo Professional 85gr Leaf Green (n°57)  
Ref. : FIMPRO-057  
Quantity : 1

Epoxy-based 2-component UHU Plus Endfest 300 - 90 min adhesive  
Ref. : OUTIL-009  
Quantity : 1

### SUPPLIES

40x30cm Modelling mat for polymer clay by Perles and Co - White - Brown x1  
Ref. : ATT-342  
Quantity : 1

3 modelling and polymer clay cutters - Circle  
Ref. : ATT-445  
Quantity : 1

6 modelling and polymer clay cutters - Ludmila Bakulina mirror effect  
Ref. : ATT-454  
Quantity : 1

Modelling cutters x 3  
Ref. : OUT-471  
Quantity : 1

Imperia pasta machine Sfogliatrice type  
Ref. : OUTIL-525  
Quantity : 1

## steps

### ★ Step 1/5

To make these two pairs of earrings take black, white, ochre, green and pink dough. Cut slices of polymer clay with your cutter blade, then put them in the clay machine at the same notch. The thickness of the dough should be medium, here the notch number 4 of the machine Imperia.

### ★ Step 2/5

Take the largest and smallest of the 3 round cookie cutters. Take two large pink circles, one white and one black, then two small ochre circles. With the elongated cookie cutter which is the smallest of the set of 3 take from the green plate 4 pieces. For this very thin cookie cutter you can put a piece of cling film on the dough before you cut the piece so that it will be easier to remove it later.

### ★ Step 3/5

Cut all your rounds into two equal parts. Then place the green bar on top of the black and pink half-circle, press gently with the baking paper to adhere the two pieces of dough together, then do the same after placing the small ochre half-circle against the green bar.

### ★ Step 4/5

You don't have to do anything with the white half circles at this point. Bake at 120 degrees for 30 minutes.

#### Step 5/5

Once the pieces have cooled down, use a two-component glue to glue your ear studs. Check at the same time the solidity of your assembly you are always in time to correct with the glue.
